CAPABILITIES STATEMENT

At Falmer our customers are our partners, and we strive to provide them with solutions that allow them to profitably run their businesses and successfully reach their goals. Since 1961, we have been providing our customers with services that protect, repair, and optimize their most important components.

We believe quality shouldn't be compromised, which is why we have spent the last 50+ years honing our solutions, so your components perform better and last longer.

THE FALMER DIFFERENCE

PERFORMANCE DRIVEN

Our team holds over 100 years of combined experience, allowing us to provide accurate, high-quality coatings that ensure your components last longer, run more reliably, and cost less to fabricate.

SOLUTIONS DRIVEN

Our services go beyond just spray coatings to also meet your R&D, machining, and post-coating needs. We work as a one-stop shop to tackle your challenges head-on and keep your machines running at peak performance.

RELATIONSHIP DRIVEN

We've built our business on the willingness to go the extra mile and provide our customers with final products that exceed their expectations. In Falmer, you have a partner you can depend on for your toughest challenges.
